

**WALID SHOEBAT** was born and raised in Bethlehem, Israel by an Arab father and an American mother.

His Maternal Great Grandfather F.W. Georgeson was the Mayor of Eureka California, and unlike his Arab connection was a great friend of Winston Churchill, who wanted nothing more than the destruction of Hitler and Nazism. Walid was born from parents who came from the opposite sides of the spectrum— both geographically and ideologically—His father raised him Muslim and His mother was an American Christian who endured 35 years in a Muslim society attempting to escape to America.

**Walid grew up a terrorist** but when he married a Christian woman, he was challenged to examine the Bible and compare it with the Qur'an. He found, *"Only biblical truth has transferred my way of thinking from being a follower of Muhammad and idolizing Adolph Hitler to believing in Jesus Christ. From believing lies to knowing the truth, from being spiritually sick to healed, from living in darkness to seeing the light, from being damned to saved, from doubt to faith, from hate to love, and from evil works to God's grace through Christ. The wonderful thing about God is that when someone sincerely and humbly cries out Him to help him or her find truth, He always answers that prayer. Today I am a Christian."*

As founder of the **WALID SHOEBAT FOUNDATION**, his mission and passion are to expose the truth about the Bible, and the persecution of Israel and Christians by Islam.

Walid proclaims that Christ was the only way to bring healing to his soul through repentance and the pursuit of reconciliation. He has set out to bring the cause of Christ, the Bible, and the case for of Israel to millions throughout the world from the media to Universities.

## WHAT SORT OF A FOUNDATION WILL THE WORLD HAVE WITHOUT GOD?

Progressives denounce God and the Bible as an old writ from thousands of years ago, that we need to advance and modernize—God is "outmoded" they say. *"Perhaps it is time to set up a new moral code without Him."*

**FOR GOD OR FOR TYRANNY** shows how mankind digresses every time he takes this route—that evil is the process of us governing others rather than allowing God to govern us. We can either believe that God exists or He simply is nowhere to be found. *But God's moral law stands*—which we shall prove here.

If we remove God, the government will become God.

This book will show conclusively that whenever we abandon God, we elevate a collective tyranny into a god. Either God becomes king or a tyrant becomes king.

This book equips and trains the inner soul through a journey into history examining some of our downfalls when man thought he was superior, to later only recognize, after the havoc, and only then confess, that the core of his principles was indeed appalling.

Today the world is at it again, demanding global unity. But unity under freedom is the process of uniting individuals that disagree, while tyranny is the process of forcing everyone to agree—in unison.

*"I don't mean all that call themselves Christians, but a remnant, a few scattered persons which God hath chosen, such as without being led by interest, education, or human authorities, can set themselves sincerely and earnestly to search after truth. For Daniel hath said that the wise shall understand, so he said also that none of the wicked shall understand"*

## WHEN NATIONS DENY GOD'S NATURAL LAW

# FOR GOD OR FOR TYRANNY

**THEODORE SHOEBAT** is the son of Walid Shoebat, a former PLO Islamic terrorist.

This is Ted Shoebat's second book; at age sixteen he released his first book, *In Satan's Footsteps* which sold several thousand copies. Theodore grew up in the USA in Northern California, attending the public school system. Because of his conservative and religious upbringing he literally struggled with his teachers and fellow students. Theodore personally witnessed Holocaust denial, anti-Semitism and anti-Zionism in the schools and his defense of Israel and the Jewish People made him a victim of ridicule and mockery.

At such a young age, Theodore was inspired due to challenges and frustrations he faced from public schools he attended. Not only was he bombarded with criticism for his conservative and religious beliefs, but they also attempted to squelch his expression by labeling him with a psychological condition known as Asberger's Syndrome.

Though the educational community thought it a stigma, Ted took it with pride since it is said that Bill Gates and Albert Einstein were also diagnosed with Asberger's, which has positive human behaviors such as loyalty, honesty and bluntness.

**FOR GOD OR FOR TYRANNY** Ted is the primary contributor for this amazing work of research and polemic. This is a timely work, based on the current state of our nation and the pivot point in the direction that America might take. What is even more amazing is that Ted Shoebat is only 18 years old as this book goes to publication.
